

# THANAAL THASLEEM

COMPUTER SCIENCE- UNDERGRADUATE STUDENT

## PROFILE

As a student at the Informatics Institute of Technology (IIT) in Sri Lanka, I have honed my skills in teamwork and technical proficiency through various projects and studies. I am seeking a one-year internship to further apply and expand my knowledge in a professional setting, contributing effectively to your organization.

## UNIVERSITY PROJECTS

### Software Development Group Project

MARCH 2024

Aid Express Online Application

- In this project, I did front-end using React and I did well and completed my work on time.
- I gained knowledge about using MongoDB, Firebase, and Github when I connected with the front end and my team members taught me the back-end also.
- For this project, I got 70 marks individually.

### Web Design and Development

2023

ConsoleHub

- This application was created for selling games online. everyone can buy games online.
- I purchased a game page using HTML, CSS, and Javascript and my personal page in application.
- Our team work together well and get lot of expedience.

### Python
